BREECHING INLETS

Thank you very much for giving us an opportunity to introduce ourselves. We started our journey back in 2000 as a Fire Fighting Company and within no time became one of the leading Fire Fighting solution providers in Pakistan. The major product lines offered are fire Fighting, Safety, protection System, and related Services.

We designed and executed various types of Fire Protection systems right from the conceptual design till up to commissioning and maintenance. The numerous projects executed by us for Government of Pakistan and foreign contractors for oil fields, Power, Energy and Industrial sectors as well as private and Public Sectors are the classic examples for our professional competency. We are specialized in Designing, Supply, Installation, Testing, Commissioning, Servicing and Maintenance of Various Fire Protection and Alarm Systems. Our highly qualified and well experienced team of Engineers is able to Design, Install and commission the system to meet the requirement of **NFPA, FPAP**, and other Local Authorities. Quality is the first of our company motto.

With an aim to serve the Pakistan Market with the best brands, we diversified and Joined hands together with one of the leading Pump manufacturer

DAB PUMPS S.p.A - ITALY (a Group Company of GRUNDFOS Holdings)

This will give the market an opportunity to buy quality products on a very competitive prices.

“Why to pay more if you can get the same quality with convenience in less”

“Simple and efficient solutions are the biggest types of innovations.

The technology of our products speaks the same language of those who buy and use them. This is our strength.”

We not only offer the products, but we also back-up what we sell with full servicing, maintenance and training options. We have a separate departments totally dedicated for maintenance and after sales services of Pumping Systems, fire fighting & security equipments. We offer The service of our Engineers & Technicians 24/7 for emergency requirements. Future we also undertake annual and semiannual maintenance contracts, which will ensure the smooth functioning of the various Pumping systems, fire fighting & Safety equipment throughout the year.

With Best Regards,
Muhammad Adnan C E O

Fire

Sprinkler Head

METRON Standard Spray Sprinkler
Residential Sprinkler
Extended Coverage
Light Hazard Sprinkler
Nozzle & Window Sprinkler
Sprinkler Types:

- Upright Sprinkler
- Conventional
- Pendent
- Vertical Sidewall
- Horizontal Sidewall

Temperature Ratings: 57°C, 68°C, 79°C, 93°C, 141°C, 182°C

Water Working Pressure Rate: 175 Psi (12 Bars)

Fire Monitor

System

METRON Manual Fire Monitor are highly moveable and easy to operate while delivering much more water. Metron Monitors are used across multiple industry sectors including Petrochemical Sites, Fuel Storage Facilities and Waste Recycling Sites. Monitors are compatible with Metron diverse range of master stream nozzles, with features to meet the changing demands of the fire service.

Fire Doors

Metron's Wide Range of Steel Fire Doors are design to withstand up to 3 Hour (As per Order) fire and designed to be installed in new and existing compartments areas to separate different zoning areas. Steel Fire Doors are usually used in shopping complexes, offices and factories and residential apartments. Our Fire rated steel door come in single leaf and double leaf according to size and type requirements.

Fire

Hydrant Valves

Material : brass/bronze
Flanged fire hydrant valves are suitable for both on-shore and off-shore fire protection application. Maximum working pressure of 10bar/16bar. Male threaded valves are also available upon request. Flange are available in DIN/JIS/ANSI. Each of our products will be tested and inspected thoroughly before the delivery.

Fire Pumps

- METRON offers a wide range of fire pumps suitable for various fire fighting applications.
- METRON fire pumps are calibrated to specific client requirements to ensure maximum efficiency.
- All fire pumps are heavy duty and designed to guarantee reliability for many years.

Meeting 100% application requirements

Fire Hose Reels & Cabinets

- Electrostatic powder coated steel sheet & stainless steel brush/mirror finish ensure a robust construction.
- The METRON Engineering Department is capable of designing custom built cabinets.
- Hose reel cabinets and breaching inlet cabinets are manufactured to comply with BS 671-1 and BS5041-5 standards.
- METRON hose reels and cabinets can be found in some of the most prestigious properties across the Pakistan and throughout the world.

Custom design capability ensures a perfect fit

Alarm Check Valve

The Alarm Check Valve are designed expressly for use in wet pipe systems. The valve will open and allow pressurization of the alarm chamber upon the operation of one or more automatic fire sprinklers.

The pressurization of the alarm chamber causes the alarm to sound mechanically through the use of a water motor alarm or through the use of a pressure switch, electrically connected to audible or visual signaling devices.

Fire Fighting Engine

Metron have complete range of fire Engines capacity starting from 25HP upto 250 HP? Engines come with ready to couple with the Pumps

Fire

Hoses & Accessories

METRON Hoses & Accessories are manufactured according to BS 6391 standards.

- Hoses are designed for a range of multipurpose applications.
- All hoses are maintenance-free (do not need drying).
- Various lengths are available.
- Couplings made from aluminum alloy, bronze, gun metal and chrome finish are available.

Different types of discharge hoses and couplings for various applications

Fire

Hydrants, Valves & Dry Risers

- **METRON** hydrants are designed to meet BS 14384 UL & FM Standard.
- All hydrants are epoxy coated from the inside. The outside underground part is coated with bitumen paint for durability.
- **METRON** valves are manufactured to comply with BS 5041-1 & 3 standards.
- Different types of valves are available in both threaded and flanged versions.

Wide range of Hydrants & Valves

Fire

Suppression Systems

- A fully integrated state-of-the-art detection systems
- Proven fire suppression technology for both CO2 & HFC227ea systems inert gas systems
- Design, manufacture, installation, maintenance and service all from one company

Engineered for Perfect Protection

Foam

Equipment & Systems

- **METRON** Foam concentrates, Bladder Tanks and Ratio Controllers are UL listed.
- The range includes Foam Bladder Tank Systems, High Expansion Foam Generators, Water Foam Monitors and Foam Proportioners, etc.
- Fixed Foam equipment is used to protect Oil & Gas Installations, industrial warehouses, etc

Fire

Detection & Security Systems

Keeping thousands of indoor spaces safe and comfortable

METRON has been awarded the responsibility for the ELV (Extra Low Voltage) system design and implementation for challenging and prestigious projects across the Pakistan and the MENA region.

We offer our specialized services to the different sectors of the real estate markets to include: Airports, Hospitals, Malls, Education, Residential Communities, Convention halls, Multipurpose Complexes and much more.

Safety

From METRON

Fire Proximity Suit Consist Of Jacket And Pant
Jacket And Pant - Complete covering neck to toe
Made from Dupont Nomex outer shell
International approval to European Norms
- EN 469 : 2005 ,Level 2 protection
Meant for fighting fire at close proximity
(Not meant for Fire Entry)

Mobile

Fire Extinguishers

METRON mobile fire extinguishers provide protection for hazardous areas where the potential for large fire exists.

Applications:

- Paint Spray Booths
- Offshore Platforms
- Loading Racks
- Fuel Storage areas
- Airport
- Manufacturing Operations

Portable Fire Extinguishers

METRON manufactures an extensive range of quality portable extinguishers including CO2, Dry Powder, Clean Agent, Foam, Water and Wet Chemical.

A comprehensive range of Extinguishers offering outstanding protection

Firefighting

Trucks

A fire engine (also known in some places as a fire truck or fire lorry) is a road vehicle (usually a truck) that functions as a firefighting apparatus. ...

They are normally fitted with sirens and emergency vehicle lighting, as well as communication equipment such as two-way radios and mobile computer technology.
